

Dear Sound Therapy Listener,

Congratulations on joining the thousands of Sound Therapy listeners who are achieving better ear and brain health for life through this method. Soon you too will be feeling the benefits of better brain integration through high frequency sound.

What to expect from your Sound Therapy Consultant

As part of the Sound Therapy SYNERGY Program you will receive ongoing support and monitoring from your personal Sound Therapy Consultant. This will help you to stay on track and get the most out of your program.

Enclosed are three forms for you to complete at certain intervals to help your Consultant track your progress. These will assist your Consultant to give you the correct advice and support as you go through your treatment program.

Your Consultant will let you know if you need to visit for an appointment in person or on the phone when you submit these forms. At these appointments, some Consultants may also offer an additional form of treatment such as body work, bio-feedback or counselling. Consultants may charge a range of fees for these consultations. If clinic attendance is inconvenient, your consultations may be able to be conducted over the phone.

Your Consultant is familiar with your profile and program needs. If you have any concerns or questions at any stage, please address these with your personal Consultant.

I wish you the greatest success from Sound Therapy. Use the program as directed and start living more of your potential today!

Warmest wishes,
